PSG - Rane Centre for Manufacturing systems

The PSG-Rane Centre for Manufacturing Systems at the PSG College of Technology, Coimbatore was established fulfilling our dream of providing a laboratory forum for continuous improvements for professionals of Rane Group companies and others. The centre was inaugurated on 21st April 2009. Rane group provided financial and technical assistance to set up the centre.

Application - oriented technical education is an extremely powerful way of creating competent engineers who will be useful to industry. Our experience has been that conceptual clarity on Manufacturing Systems coupled with an appreciation of their application is an essential ingredient for operational effectiveness. All the hardware and software in this centre would provide the necessary fillip to ensure that the students are educated on the state-of-art Manufacturing systems. The following equipments have been commissioned at the centre.

- ◆ **Sensors kit for Distance and Displacement**
- ◆ **Sensors kit for Force and Pressure**
- ◆ **Product identification kit**
- ◆ **Servo Systems kit**
- ◆ **Setting of Modular Production Systems -
Distribution Station, Testing station, Processing Station,
Handling Station**

PSG - Rane Centre for Manufacturing systems

- ◆ Desktop Trainer kit for conveyer station
- ◆ Desktop Trainer kit for handling station
- ◆ Desktop Trainer kit stacking station
- ◆ Robotino
- ◆ Quanser HVAC Trainer kit
- ◆ Quanser DC Motor Control kit
- ◆ Infinity Technology Kit

These are available to the student community as well as to the industry professionals for the purpose of continuing education and training.

Inaugurating the Centre, Mr. L. Lakshman said, "Rane has committed financial support to the extent of Rs.30 lakhs. Even in the face of the current challenging times we believe it is important to support creation of such facilities for the long - term benefit of the industry."

We urge upon the plants to take advantage of this centre for training and building competency in the area of Manufacturing systems. Please feel free contact Hari Babu or Santhosh at RIED to coordinate with PSG to organise need based programs.

'Sittanavasal Caves' in Pudukottai District

To the District Collector Tmt. A Suganthi, IAS, Rane Group presented a cheque for Rs.10 lakhs for Tourism development of 'Sittanavasal Caves' in Pudukottai District.

Thiru. Harish Lakshman, Director, Rane Holdings Ltd., presented a cheque for Rs.10 lakhs to the Pudukottai District Collector Tmt. A Suganthi, IAS, for construction of entrance arch at Sittanavasal Caves

'Sittanavasal Caves' in Pudukottai District

At Pudukottai District Collector's office, Harish Lakshman, Director, Rane Holdings Ltd., handed over a cheque for Rs.10 Lakhs to the District Collector Tmt. A. Suganthi, IAS for the development of Sittanavasal Caves as a tourism site in Tamil Nadu.

Established in 1929, the Rane Group comprises seven companies manufacturing safety and critical components for a broad range of automotive industry segments. In fiscal 2009 - 10 the group recorded revenues of Rs.1708 Crores. The Rane Group embraces TQM as a way of life and four of its companies have received the coveted Deming Prize.

Rane Group has strong presence in Trichy and Pudukottai districts with one manufacturing unit in Trichy and two in Pudukottai district. All the three plants are located on the Trichy – Madurai highway. The total no. of employees in these three units are 900.

This fund given by Rane Group will be used to construct an aesthetically appealing entrance arch at the Sittanavasal Caves complex to promote tourism.

"All too often, tourism is a major factor which contributes to the development of local communities." said Thiru. Harish Lakshman, Director, Rane Holdings Ltd. "Developing sustainable tourism would enable local communities to develop and also promote the economical development of the community. It is the Endeavour of Rane Group to support and promote the initiatives of the Government in promoting tourism and thereby the economic development of the local community"
